

# THANK YOU for your order!

To use your Scentsy Warmer, place one or two cubes of wax in the warmer dish and turn the warmer on. Once the wax has lost its scent, remove the wax and use a new cube.

To change the wax in your warmer, heat the wax and discard it, or pour it back into the Scentsy Bar clamshell if you'd like to reuse it later.

If you need more Scentsy products or you'd like to host a Scentsy party and earn free and half-priced product, please contact me!
